

## SBS VIRACOAT *Antimicrobial Coating*

### Unpleasant Odors and Pathogens just don't have a chance when they are up against the SBS VIRACOAT Integrated Antimicrobial Nano Ceramic Products

All types of clothing benefit from the SBS VIRACOAT antimicrobial coating products. The enhancement ensures all-day freshness and improved functionality for superior performance and wearing comfort.

Protection for sportswear, socks, shoes, outdoor apparel, leisure and business wear, hosiery, sleep attire and underwear:

- is safe and durable even after intensive use.
- hinders reproduction of bacteria; therefore, unpleasant odors do not develop.
- provides long-lasting freshness.
- increases the useful life of treated articles (helps to reduce thread abrasion).
- offers more wearing enjoyment during all types of activities as it offers water repellency – yet remains breathable.
- encourages ecological awareness.

#### Clean Fact:

There are 250,000 sweat glands in your feet that can produce as much as half a pint of moisture each day. While the sweat itself doesn't smell, damp socks and shoes can trap odor-causing bacteria.
