

## SBS VIRACOAT *Antimicrobial Coating*

**The Integrated Antimicrobial SBS VIRACOAT Nano Ceramic Technology brings the Best Available Technology to Help Meet Strict Hygiene and Quality Management Systems (HACCP) and Good Manufacturing Practices (GMP).**

The SBS VIRACOAT antimicrobial Nano Ceramic hygiene technology is an additional safety barrier to help prevent the growth and spread of microorganisms.

We have innovative solutions to protect just about any surface, concrete, tile, grout, metals, plastic polymers, acrylics, glass and textile articles durably and effectively against bacteria, odor and fungi and more.

Awareness of responsibility and liability in the food industry has grown, and the demand for improved quality, safety and longer shelf life of food products has increased.

The Integrated Antimicrobial SBS Nano Ceramic Technology line of products can help to permanently protect against pathogen and bacterial colonization on:

- foils, plastic films & storage containers..
- conveyor belts and related surfaces.
- transport materials and surfaces..
- packaging and food storage.
- cleaning utensils like brushes, dish cloths, sponges.
- flooring, concrete or ceramic tile and grout, VCT tile and more.
- counter tops and sinks.
- cutting boards, cutlery blades and handles.
- uniforms, aprons and gloves.
- water filtration & ventilation systems.
- waste management.
- coffee machines and other dispensary equipment.

### **Clean Fact:**

More than 200 diseases are spread through food products worldwide.
