

SBS VIRACOAT *Antimicrobial Coating*

The Integrated Antimicrobial SBS VIRACOAT Nano Ceramic Technology Offers Around the Clock Freshness and Protection – Wherever Your Job Takes You.

The highly durable SBS antimicrobial embedded Nano Ceramic product technology:

- improves wearing comfort (offers water repellency yet remains breathable).
- meets increased demands for hygiene.
- increases cleanliness of work surroundings and equipment.
- functionality and performance of materials are enhanced.
- extends the useful life of treated articles (lubricates fibers reducing wear).

All workers benefit from better hygiene, freshness and protection even during intensive indoor or outdoor use. The SBS antimicrobial protective treatment for textiles and other surfaces are reliable and permanently treat; safety gear, professional wear, construction clothing, protective gear, safety glasses, face masks, uniforms as well as office equipment, keyboards and surfaces against odors, bacteria, mildew and vectors.

This SBS protective technology gives added value to products produced and used as well as a clear advantage in the wholesale and retail marketplace and the trades industry.

Clean Fact:

400 more bacteria were identified on computer keyboards than on a toilet seat. Cell phones carry over 3,895 bacteria per square centimeter.
