SBS VIRACOAT *Antimicrobial Coating*

Integrated Antimicrobial SBS VIRACOAT Nano Ceramic Technology can offer increased Health Protection in Stadiums and other Large Venue settings, regardless of the surface.

The SBS technology protects:

- seating surfaces (composite, polymer, wood metal, fabric or leather).
- handrails (metal, wood, polymer, composite, etc.).
- concrete floors, decking and step surfaces (also available with “Wet-Grip” non-slip smooth surfaces, in clear or colors with or without textures).
- hard ceramic tile and grout surfaces in restrooms, food prep areas service counters.
- total restrooms surface coverage, sinks, toilets, faucets, towel dispensers, hand air-dry units, doors, stall surfaces, doors, hardware, floor and wall surfaces.
- ticket and information booth interior and exterior surfaces.
- artificial grass, AstroTurf® and similar artificial playing field materials, to protect players from blood borne pathogens, bacteria, virus and other dangerous microorganisms that attach to and live on the polymer grass blades and within substrate backing.
- gym mats, basket balls, hoops and nets, baseball base plates, soccer balls and similar surfaces harbor and offer a surface for Staph, MRSA and other bacteria to colonize.
