

SBS VIRACOAT *Antimicrobial Coating*

The Integrated Antimicrobial SBS VIRACOAT Nano Ceramic Technology Helps to Keep Your Kitchen a “Clean Zone”.

The SBS technology function has multiple effects:

- against the colonization of bacteria.
- against material and surface destruction.
- against mold and mildew formation.
- against unpleasant odors.
- and easier to keep clean and smudge free.

There are an unending number of breeding grounds for bacteria, mold and mildew in the kitchen. Just think about all the things you touch in your kitchen. Articles like faucets and sinks, cupboard handles or refrigerator drawers, cutting boards, hand towels and cleaning utensils as well as all work surfaces.

SBS technologically backed products make an active contribution to kitchen hygiene.

Clean Fact:

A normal dish cloth can harbor more than 20,868 bacteria per square centimeter.
